

NXT Condominiums - Stainless Steel Sculpture

Location Toronto, Ontario
Designer/Architect Jim Hodges
Duration June 2011 - Oct 2013

Scope - Soheil Mosun Limited was commissioned to manufacture design, engineer, fabricate and install this monumental public art sculpture designed by the noted American artist and designer, Jim Hodges.

Highlights - This sculpture stands approximately 30 feet tall and is approximately 18 feet long and 10 feet wide at the base. The galvanized core of steel is 1/2" to 3/4" inches thick and consists of multiple irregularly shaped parts welded and clad with 16 gauge, 316 alloy stainless steel with a mirror polished finish. The entire sculpture is mounted to a reinforced concrete base complete with structural gusset plates.

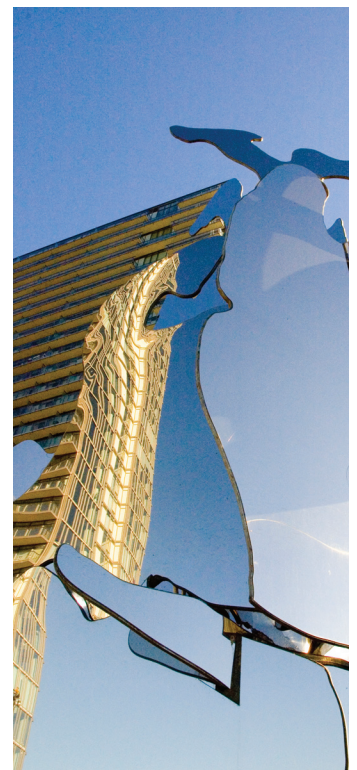

The sculpture viewed from the Highway
